

# UNDERCULTURE CONTEMPORARY

---

## FINE ARTS GALLERY

### **Underculture Contemporary Gallery**

A gallery in Nelson Mandela Bay, it aims to become the center of authority and foremost point of reference for relevant, meaningful and quality contemporary visual arts in the Eastern Cape. The gallery provides a platform and showcase for artists and their work and will represent work of artistic significance. More than an exhibition space, its longer term agenda is to actively promote and market art and to develop public accessibility and the appreciation and acquisition of contemporary art. Complementing its exhibition programme, *Underculture Contemporary* acts as an agency for emergent career artists and an art consultancy to individual and corporate buyers.
