

SPOTLIGHT Series
an Art Source South Africa Product

SNAPSHOT

Quality professional images are a crucial part of an artist's marketing toolbox. They need to be provided in the appropriate resolution and format for both online and print use. Photographing artwork, (art documentation), is a specialised skill that is not part of all photographers repertoires. It requires a high level of both photographic and post production editing skills. Quality images are the basis for every activity that an artist undertakes outside of making the artwork, and can make all the difference in a sale, or profiling a body of work.
